The Leader in  
Protective Services

## Shouldn't your most secure asset be your security provider?

**Security Officers that are *better* trained, *effectively* supervised and *truly* accountable.** When our clients are faced with an issue, a single call initiates all resources necessary to investigate and resolve the issue. With nearly 500 branch managers and 90,000 security officers, Securitas is by far the most locally-focused security company in the country.
